GET TO KNOW THE ARTIST

After working with countless major artists throughout various genres of the music industry, RONNIE released his debut solo project in 2017 titled "Could This Be Love", to great acclaim. Due to the response and success of his solo debut, RONNIE was signed to Opulent Vision Management Company and relocated to Los Angeles, Ca, where he immediately began working with artists such as Celine Dion, David Lee Roth, and Tisha-Campbell-Martin. RONNIE was even invited to perform on Cancun, Mexico's own version of Good Morning America, called The Sunny Morning Show.

RONNIE along with his production company RAREntertainment are on the verge of taking over R&B with the arrival of his new project entitled "Time is Up". With your financial sponsorship, we are expecting even greater success and opportunities from the promotion of this new project, along with your business and/or brand.

REQUEST FOR SPONSORSHIP

Not only will your sponsorship contribute to the finalization of the "Time is Up" project, but it will also help promote the project, upcoming tours, concerts, tv show admissions, radio registries and submissions, production of merchandise, and finally a portion of your financial sponsorship will help support the W.O. Smith Music School. The W.O. Smith music school, which provides inexpensive music lessons for less fortunate children in the Nashville Community, is held especially close to RONNIE's heart, as he is a product of the school and has a strong belief that music can open doors that one ordinarily may never walk through and can take you places that one would never have the chance to go. With you as a sponsor, there is no limit!
